INTERNS/RESIDENTS AGREEMENT

Better Mood Clinic of South Georgia is a full service mental health clinic that provides counseling, social work, psychological and psychiatric services as well as outreach and wellness services to individuals and families within Southern Georgia and Northern Florida. In order to provide optimum services, we strive to be a training facility for interns and residents in the fields of counseling, social work, marital and family, and psychology. To enhance and facilitate the educational goals of the mental health field and improve the quality of care in this community, we are inviting you to allow our interns and residents to provide services for you, as an integral part of this training process.

An Intern or resident is an individual who is in training for, or is master's level or PhD trained. This individual with your agreement may participate in yours or your child's treatment, as your primary provider of care, under the direct supervision of our licensed professionals. As required by the State of Georgia, our interns and residents are held to strict guidelines as are our licensed clinical providers.

If you have any questions regarding the above, as always please don't hesitate to ask us. By signing below, you acknowledge your understanding and agreement to participate in this training opportunity which ultimately allows us to provide the highest quality of care to you and/or your loved ones.

I have **read and understand** the above agreement. I also understand I can change my decision at any time.
